

WORK SMARTER WITH THE BLUELINK APP

Planning jobs efficiently, drawing up correct quotes and ordering paint on time... Your job is so much more than just painting. The BlueLink app improves your business with real-time job site & sprayer information, anywhere or anytime.

LOCALISE YOUR EQUIPMENT

Every machine connected to the app via bluetooth can be tracked in the app

Gain insight on which location your machines were used, and their productivity

FOLLOW THE PROGRESS OF YOUR JOBS

The app keeps track your paint consumption

Check your previous jobs in the app to better plan your next jobs and to draw up correct quotes

EXTEND THE LIFESPAN OF YOUR EQUIPMENT

Any issues arising while painting can be 'recorded' in the app

Tell the app when a machine will need to go in for maintenance and the app will notify you in time

GET ASSISTANCE FASTER

The app bundles a lot of useful information, from technical specifications (of machinery), to item numbers of parts

Still need help? It will display the nearest Graco distributors based on your location

PUT BLUELINK TO WORK FOR YOUR BUSINESS TODAY

3 EASY STEPS TOWARDS A MORE EFFICIENT BUSINESS

I use BlueLink on a daily basis. It helps me to keep track of my consumption of materials and to calculate how much I used per job. Why is that important? In the first place to correctly negotiate with customers and investors, and it also helps to make more accurate estimations for future jobs, of course.
